CARGO LOSS PREVENTION COMMITTEE MISSION

The role of the Cargo Loss Prevention Committee is to assemble and disseminate technical information which focuses on identifying, minimizing, and preventing loss or damage to cargoes moving in international trade. Major activities would include, but are not limited:

1. To stay abreast of and to enhance our industry’s knowledge of cargo loss exposures and loss prevention techniques through studies and timely position papers.

2. To assist and participate with the AIMU Education Committee and other committees on educational and promotional efforts which involve cargo loss prevention.

3. To exchange information with governmental, maritime, law enforcement, transportation and other related organizations.

4. To represent AIMU on cargo loss prevention matters at IUMI and to other foreign or domestic organizations, including the preparation of the annual IUMI Questionnaire and presentations at other domestic and international forums.
