TECHNICAL SERVICES COMMITTEE MISSION

To report to counsel and make specific recommendations to The Board of Directors of AIMU in all technical matters impacting the market.

- To be available to cooperate and coordinate with other AIMU committees for technical advice and services.

- To assist in reviewing, researching and answering various IUMI questionnaires as they are received.

- To organize, produce and disseminate technical reports and information that would be of interest to underwriters.

- To make AIMU members aware of technical innovations on the maritime field, including comments with respect to their viability from a loss reduction or prevention standpoint.
